ARIZONA CENTRAL BANK TO HAVE NEW HOME

As an index to the growth of Mo-have county's resources comes the announcement that the Arizona Central bank will increase its capital stock from \$150,000, to \$250,000, to care for its rapidly expanding business and finance the building of a \$25,000 home for its exclusive use on its own property at Fourth and Beale streets, construction of which will begin in the near future.

A branch bank is also to be established at Oatman, a location and character for which have already been secured.

"We consider Oatman our legitimate field," stated cashier J. H. Rosenberg, "having been in this county since 1887, and will enter that camp to care for our patrons, irrespective of the number of other banks that may be established there."

With a capital and surplus of \$250,000, and total resources of over \$2,000,000, the Arizona Central bank, since its inception in 1887, has grown into one of the strongest financial institutions in northern Arizona.

T. E. Pollock, the president, besides handling the Flagstaff bank of the same name, is also vice president of the Phoenix National bank, the First National of Douglas and the Bank of Williams, connections which make for conservatism and solidity.

H. H. Watkins, manager, has long been identified with Kingman's business development, while J. A. Rosenberg, cashier and assistant manager, upon whose shoulders rests the burden of the bank's financial transactions, has literally grown up in Arizona's banking circles. J. T. Watkins, as assistant manager, completes the roster of the Arizona Central bank's officers.

While complete details for the bank's new home have not been worked out, the structure is to be of stone or concrete with an ornate facade, and fully equipped with the most modern vaults and banking fixtures.—Kingman Mineral Wealth.

BUSINESS MEN TRYING TO SETTLE MINERS' STRIKE

Business men of the Clifton, Morenci and Metcalf districts have appointed a committee of mediation in an effort to break the deadlock of the strike of the miners and the mine managers of the Shannon, Detroit and the Arizona copper companies.

The strike began September 11. The managers, now in El Paso, insist upon the elimination of the influence of the Western Federation of Miners before discussing grievances and the strikers demand consideration of their grievances without reference to their union.

Bricklayer Injured by Elevator
Adolph Gustavson, a bricklayer on the Babbitt garage building had a very narrow escape from death last Friday afternoon. He accidentally stuck his head into the temporary elevator shaft used for hoisting material up to the fifth story and received a crack that cut his scalp open in a large V shape to the skull, but knocked him out of the way instead of catching him fairly and crushing his head. A wheelbarrow used in wheeling concrete that stood in the way took the main part of the blow or he would have been instantly killed.

Health Seeker Dies
Anthony Brems, a young man about 25 years of age died at the county hospital Monday of tuberculosis. He had been at the hospital three days. He was a resident of Detroit, Michigan, and at the request of his mother his remains were sent back to the old home for burial.

Artist Puts a County on Canvas
An oil painting of Gila county attracted considerable attention at the state fair. It was done in oil and showed all the towns in the county, telephone lines, mountains and streams. Coconino county would make a wonderful painting if all its features could be put on canvas and would require extraordinary skill to produce such a painting in colors.

A number of Mexican small boys have been coming across the line into Nogales, committing depredations and stealing. Since they are too young to be sent to prison and can not be sent to the reform school, the citizens have adopted the novel plan of cutting their hair short and notifying the public to look out for short haired boys.

Arrested Two Full Trunks
Deputy Sheriff Charles Murray captured two trunks filled with whiskey at Williams last Thursday night when they came in from Gallup. He arrested them for being full and sent them to Flagstaff to be tested by County Attorney Wilson.

Up to date no one claims the trunks and it is almost certain that the trunks in a spirit of hilarity jumped on the train at Gallup of their own volition for a joy ride. The trunks were properly checked, but the owner has neglected to claim them.

A Happy Thanksgiving Wedding
There was a happy, joyful wedding at the E. S. Carlos ranch at Turkey Tanks Thanksgiving day, when Miss Stacy Carlos, the second daughter of E. S. Carlos, became the bride of Mr. Mathew Ellis. The ceremony was performed by Judge J. O. Harrington in the presence of the family and a few especial friends of the contracting parties. Mrs. Ellis has spent the greatest part of her life in Flagstaff and is a handsome young lady most worthy of all the good things of life and one who will be of material assistance to the lucky man.

Mr. Ellis is a carpenter by trade and has made Flagstaff his home for the past two years. He has many friends made during his residence here.

After the ceremony the assembled wedding party were regaled with a wedding-Thanksgiving dinner that was indeed a feast. A roast pig flanked by a roast turkey decorated the center of the long table, this, with about all the accessories that an epicure could think of, comprised the good things that made the dual holiday one to be remembered as one of the happiest events of the nearly fagged out 1915 year.

Miss Webb received word from her sister that a bullet had struck their porch, passing through the refrigerator, and sinking into the kitchen wall about three inches. No one was injured, although a great deal of excitement was caused.

They Can Come Back

The Lumberjacks were a little disheartened after their trip to the Salt River Valley, but they never quit, and are going to try conclusions with Prescott on Thanksgiving Day.

Flagstaff Is Back of N. A. N. S.

The Northern Arizona Normal School is very grateful to the people of Flagstaff for their generous subscriptions to the Athletic fund. Two hundred and sixty two dollars were subscribed by many people of the town.

Two donations of fifty dollars each, two of twenty dollars, two of ten dollars, and the remainder in five speak well of the attitude of the Flagstaff citizens toward the Normal School. Such encouragement means a great deal for the future of the school; and it works both ways—a bigger Normal School means a bigger Flagstaff, and bigger business for the business men of the town.—The Pine.

Large Crowd Sees Laurant the Magician

On Thursday evening, November 18th, a large crowd attended the second number of the entertainment course, which consisted of a very enjoyable performance by Laurant the Magician.

Mr. Laurant entertained his audience with marvelous feats of magic, and kept them wide-eyed with wonder as he caused articles to appear and disappear without the slightest effort.

In the second part of the performance, the magician told of a bandit in Paris, who could, with the aid of a hat without a crown, change his appearance so completely as to escape all detection. Mr. Laurant then produced a hat of the kind mentioned, and by merely folding the brim, impersonated the following characters: Napoleon Bonaparte, a Swiss Peasant, a Fireman, a Member of the Old Guard, a Student in cap and gown, a Monk, and a Sister of Charity.

In the third part of the performance the man of magic displayed to the ladies the magician's method of preparing a meal; how to change rice into cream and sugar, coffee into tea, and bran into candy for the children.

Several times during the evening Mr. Laurant requested the assistance of some one in the audience, requesting them by all means not to tell how he performed his tricks. We believe that not one has failed to keep the secret.

The entire program was very entertaining, and proved that Mr. Laurant is a master of his art. The hall was filled to its capacity, and we hope that the remaining numbers of the course will be as well attended.—The Pine.
